## Export tank

**BUWAtank BUWAliner BUWAcover BUWArroof BUWAtop BUWAairtop BUWAbase BUWAhouse**

# Buwatec is introducing a new **EXPORT Water Storage System**

**The BUWAtank is specified in short panels of 2,30 meter.**

## **New Advantages Export water storage tank:**

- Increase of stability and mechanical strength
- Lower costs by reduction of 25% transport volume
- Easy and safe installation of panels by reduction of 30% weight of panels
- Fast fitting of panels by reduced size per panel (panel 2,30 meter)
- Better logistic performance
  - Pallet length maximized at 2,29 meter
  - Pallet height considerably lower and better stackable
  - Weight concentrated in the middle of truck or container floor
- Quick loading and unloading container or truck

## **Existing advantages of BUWAtank water storage tank:**

- Manufactured ISO certified fabrication process in the Netherlands
- Easy and clear assembly instructions by use of pictorials
- Use of M12 bolt sets, protected by Zincrolyte anti-corrossion layer
- Galvanised or fully Plastisol coated version for extended lifetime
- Liners available is the usual qualities PVC, PVC Plus, EX and EPDM. ns.

**WSE version is a standard BUWAtank supplied in minimal 0,8 mm panels.**

**WSEA version is a heavy duty BUWAtank supplied in minimal 1,0 mm panels.**
